

JINS

EDITOR-IN-CHIEF
Stephen M. Rao
 Cleveland Clinic, USA

Aims and Scope

JINS is the official journal of the International Neuropsychological Society, an organization of over 4,500 international members from a variety of disciplines. Our editorial board is comprised of internationally known experts with a broad range of interests. **JINS** publishes empirically-based articles covering all areas of neuropsychology and the interface of neuropsychology with other areas, such as cognitive neuroscience. Theoretically driven work that has clinical implications is of particular interest.

Information for Contributors

Types of papers considered:

- **Research Articles:** original, creative, high quality papers covering all areas of neuropsychology; focus may be primarily experimental, more applied or clinical
- **Brief and Rapid Communications:** shorter research articles
- **Neurobehavioral Grand Rounds:** unique case studies, which are published with an introduction by an expert in the field to provide a more global perspective
- **Critical Reviews:** reviews by experts on important topics in neuropsychology
- **Short Reviews:** conceptually-oriented snapshots of the current state of a research area by experts in that area
- **Dialogues:** a forum for publishing two distinct positions on controversial issues in a point-counterpoint form
- **Symposia:** several research articles that are thematically linked
- **Letters to the Editor:** responses to recent articles
- **Book Reviews**
